

Ralco Extrusion Pvt Ltd

Shaping Aluminium Shaping Future

ALuminium Extrusion Profiles

Windows | Doors | Solar | Lighting

About:

Ralco Extrusion Pvt. Ltd. is a leading manufacturer of high Quality extrusion profiles, based in Palghar Maharashtra. With Oer 15 years of industry experience, we specialize in designing and producing a wide range of aluminium profiles for industrial, architectural, and custom applications.

Our state-of-the-art manufacturing facility is equipped with advanced extrusion presses, in-house die development, and finishing capabilities to ensure precision, consistency, and reliability in every product we deliver.

We are committed to delivering customized solutions, timely service, and superior quality to meet the evolving needs of our clients across divers industries.

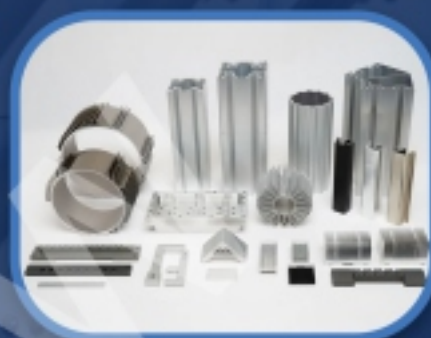

Product Categories:

Simple Extrusion Profile

Architectural Profile

Custom Extrusion Profile

Industrial Profile

Solar Profiles

Heat Sinks

Curtain Rail Profile

Lighting Profiles

Formwork Profiles

Manufacturing capabilities:

- **4 FULLY AUTOMATED EXTRUSIONS PRESSES** – high- speed, precision output for consistent and efficient production.
- **2 HIGH CAPACITY MELTING FURNACES** ensures superior alloys purity and consistency.
- **IN HOUSE DIE MAKING WORKSHOP** – speed, quality, cost control, and flexibility compared to outsourcing . It streamlines the entire manufacturing process by having design, production, and maintenance teams co-located and working in close alignment.
- **ADVANCED POWDER COATING & ANODIZING FACILITY** - offers durable, high- performance polyester and epoxy finishes using electrostatic application and heat curing for a smooth, protective film.

Annual production capacity- 12000 tons

Annual melting capacity – 16000 tons

Quality assurance:

With NABL Accreditation Certification.

UTS machine - for tensile strength testing

Brinell hardness tester - for mechanical property accuracy

Spectrometer – for fast, accurate, and versatile analysis for quality control, material identification, and process monitoring across the metal life cycle.

Digital verniers & gauges – for tight dimensional control

Certification:

Ralco is ISO 9001: 2015 certified and BIS certificated under IS 733 and IS 1285.
