

Your Bonding Expert

# GLACO<sup>®</sup> Structural Glazing Tape

## Available Sizes

Thickness: 3mm, 4mm, 6mm, 8mm, 10mm

## Provides Accurate Silicone Gap

Maintains uniform spacing between glass and Aluminium profiles for a perfect silicone byte.

## Ensures Strong Structural Bonding

Dual-side acrylic adhesive delivers a long lasting bond under load and vibration.

## Silicone Compatibility

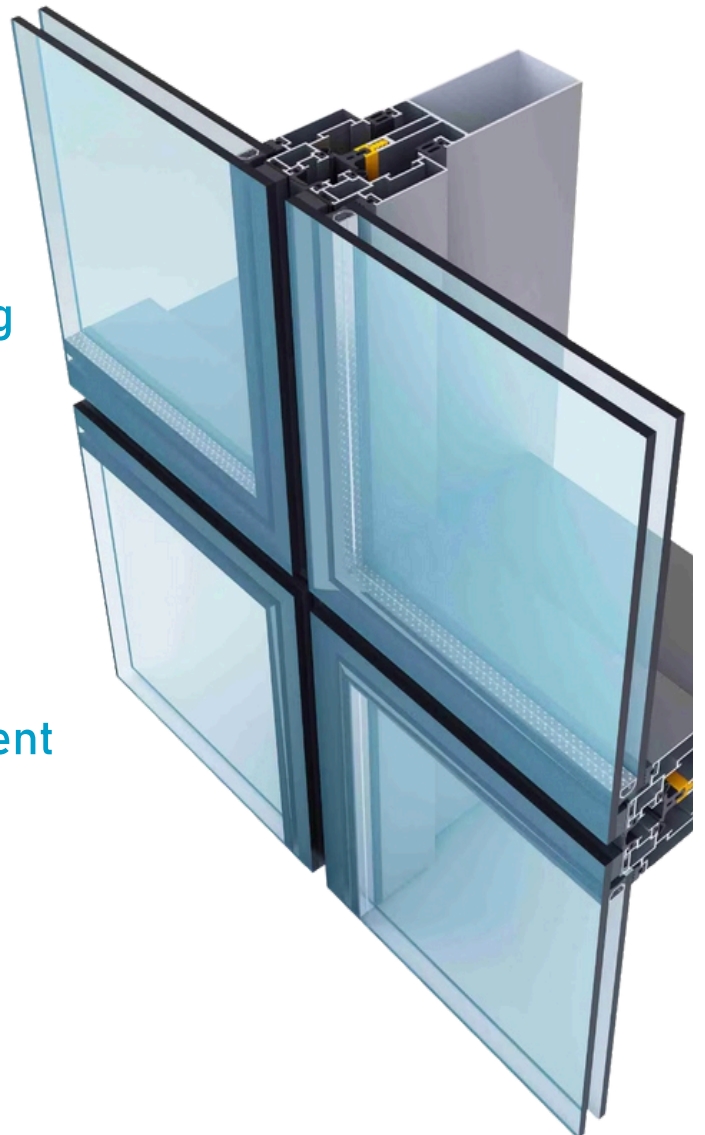

Compatible with all standard silicones for strong and lasting adhesion.

## Prevents Air Pockets & Misalignment

Eliminates trapped air, ensuring smooth alignment during glass installation.

## Performs In Harsh Conditions

Resistant to temperature variations, oxidation, UV exposure, and fungi growth.

Instant Bonding | Shock Absorption | Stress Distribution | Easy Handling

# Products for

# Glass / Window / Facade

**TP651** GLACO High Bond Tape –  
GL913FS / GL912FS

- Excellent adhesion & shear strength
- Absorbs vibration & thermal Expansion
- Clean long-term outdoor Performance
- Replaces mechanical Fasteners

**TP654** Green Polyester Tape –  
GL980HT

- Heat resistance up to 220 °C / 30 minutes
- Leaves no residue after baking
- Excellent edge definition in coating
- Electrically insulating polyester film

**TP652** PE Protection Tape –  
Aluminium, Glass & uPVC

- Protects against dust, scratches & stains
- Clean removal—no adhesive residue
- Weather-stable for up to 3 months
- Easy peel application & removal

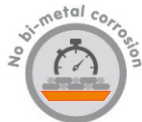

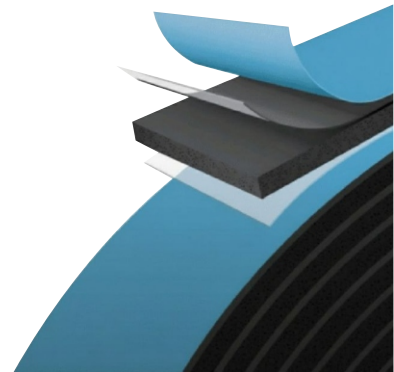

**TP655** GLACO Foil Tape –  
GL32FK

- Aluminium foil backing for heat reflection
- Strong adhesion on Multi-surfaces
- UV & moisture resistant
- Ideal for duct sealing & insulation joints

**TP653** GLACO Masking Tape –  
GL220180P

- Excellent Masking on curves
- Residue-free removal after painting
- Solvent & heat resistant
- Easy tearable by hand

## Global Reach

We Export World wide

## Our Commitment

Delivering premium adhesive solutions with consistency, reliability, and innovation across multiple industries – Construction, HVAC, Automotive, Electrical & Electronics.

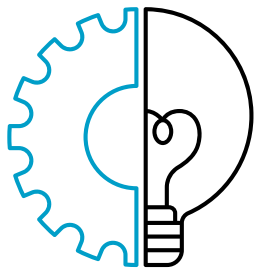

## Our Quality

Only the best materials and precise manufacturing.

## Our Reliability

Durable, tested, and dependable adhesive performance.

## Custom Solutions

Tailor-made tapes for unique applications.

## Innovations

Constantly improving through R&D and technology.
