Simplicity and compactness

Intermac

Intermac is a pioneer
in the world of glass
processing.

It is a comprehensive range of stand-alone machines, designed to work in perfect synergy with the operator, where human skill and experience is combined and enhanced, thanks to the coordinated and efficient management of each machining phase.

Intuitiveness, simplicity and flexibility are the foundations upon which the entire process is built.

Forvet

Forvet is a leader
in the world of automatic
machines for glass
processing.

These machines feature
integrated automation,
designed to offer a
high level of autonomy
during processing whilst
minimising operator
intervention.

Machining Types

A machining operation
for every requirement

Cutting

Range of cutting tables
and water jet solutions for
cutting float and laminated
glass

Edging

Range of solutions for
grinding and polishing
glass.

Drilling

Range of solutions for
boring, countersinking and
milling glass.

The machining types represent the different kinds of machining operation, and define the specific end purpose or application of an operation.

Multi-machining

Range of machining centres for carrying out different types of boring, grinding, polishing, scoring and countersink operations on glass.

Segment

Your needs,
our skill

Your daily challenges feed our experience, as they enable us to get to know your requirements, your production dynamics and your spaces.

In order to respond to your needs, we have designed a portfolio of products to guide you in the most appropriate choice.

Distinctiveness and performance

Pro represents excellence in terms of performance, designed for customers who wish to distinguish themselves with the latest-generation solutions that they choose.

Agility and competence

The perfect choice for managing custom production requirements. The Up solutions combine advanced flexibility and functionality, guaranteeing efficient responses to constantly-evolving production challenges.

Simplicity and compactness

The Go solutions are designed for those looking for compact, easy-to-install machines that are simple to use. Ideal for those looking for a practical, immediate approach.
