

SHADLEY

Innovative Window Solutions

A Premium Brand by
EAGLE FABRICS

Redefining LIGHT, PRIVACY,
and COMFORT.

+91 98968 27727

WHY SHADLEY STANDS OUT

Crafted with **GLOBALY SOURCED** high-performance fabrics and components, powered by **INTELLIGENT WISTAR Motors**, and engineered to withstand India's **HEAT, DUST, and HEAVY RAINS.**

SERVICES WITH BENEFITS

- **World-Class Materials** — Premium imported fabrics + high-performance components sourced globally for superior quality.
- **Intelligent Operation** — Seamlessly powered by advanced WISTAR Motors for smart, effortless control.
- **Made for India** — Engineered tough against extreme heat, dust storms, and heavy monsoon rains.
- **Perfectly Yours** — Fully customized to fit any window dimension or unique architectural design.

EXTERIOR

Outdoor protection that blocks heat & weather before it hits your glass.

INTERIOR

Transform your windows with sophisticated shading solutions.

MOTOR

Effortless smart control via remote/app for convenience and modern living.

EXTERIOR

Ultimate Barrier Against Heat, Dust & Rain

Engineered for ultimate outdoor protection *and durability in India's harsh climate*, **SHADLEY EXTERIOR BLINDS** combine premium materials with advanced functionality to block **HEAT, UV RAYS, DUST, RAIN**, and **WIND** before they reach your windows —keeping interiors cooler, quieter, and more energy-efficient.

**SHADLEY EXTERIOR
BLINDS**

EXPLORE EXTERIOR SERVICES

PVC MONSOON BLINDS

High-quality PVC Monsoon Blinds designed to protect balconies and outdoor spaces from rain, wind, dust, and harsh sunlight. Durable, waterproof, and easy to operate, these blinds offer clear visibility while ensuring long-lasting performance in all weather conditions.

PVC MAGNETIC BLINDS

PVC MAGNETIC Blinds are designed with strong magnetic edges for easy opening and closing. They provide effective protection from rain, dust, wind, and insects while maintaining clear visibility. Ideal for balconies, windows, and outdoor areas, these blinds are durable, waterproof, and low maintenance.

PVC CURTAINS (AC CURTAIN)

2mm & 3mm PVC Curtains are high-quality flexible PVC sheets used for partitions, entrances, cold storage, and industrial applications. We offer a diverse selection of PVC curtains, including standard, freezer-grade, welding-grade, and anti-static options, tailored to meet your specific needs.

EXPLORE EXTERIOR & SEMI EXTERIOR SERVICES

INVISIBLE GRILL- EXTERIOR

Invisible grilles are the perfect marriage of uncompromising safety and uninterrupted views. Unlike traditional bulky iron bars, these systems use high-tensile stainless steel cables to secure your home without making it feel like a cage.

MOSQUITO MESH- SEMI EXTERIOR

Crafted with a 16mm pleated mosquito mesh housed within a sleek aluminium frame, this sliding system ensures smooth operation, effective insect protection, and continuous ventilation. For enhanced functionality, 16mm honeycomb fabric provides dual options—blackout on one side and translucent on the other.

SECURITY MESH- SEMI EXTERIOR

Why settle for just a door when you can have a complete home solution? Our Security Mesh doors are designed for homeowners who value safety, hygiene, and comfort. It acts as a heavy-duty security barrier, a high-quality mosquito screen, and a ventilation panel—all in one.

INTERIOR

Elegant Light Control, Tailored for Your Home

SHADLEY *INTERIOR BLINDS* blends sophisticated imported fabrics with precise customization to perfectly suit any window or room style. Offering effortless **PRIVACY, SOFT, DIFFUSED LIGHT**, and enhanced comfort, all crafted for lasting beauty and seamless integration in your living spaces.

- Manual, Chain, Cordless & Motorized options
- Day & Night dual-fabric system
- Durable powder-coated aluminum hardware

3. Motorization

- Powered by WISTAR motors
- Remote, wall switch & smart home compatible
- Smooth, quiet & high-torque performance

4. Functional Benefits

- Energy-efficient
- Noise reduction
- Child-safe design

WOODEN BLINDS

Easy Maintenance: Anti-static finish that minimizes dust accumulation for easy cleaning.

1. Premium Wood

- High-quality natural or faux wood
- Slat sizes: 35mm (classic look) & 50mm (bold style)
- UV-protective finish to prevent fading & cracking

2. Precision Control

- Smooth internal tilt mechanism
- Standard cord or premium ladder tape option
- 180° slat rotation for perfect light & privacy control

3. Hardware & Operation

- Durable cord-lock or chain system
- Motorized option with remote control
- Heavy-duty reinforced headrail

4. Functional Benefits

- Natural thermal insulation
- Strong & long-lasting build
- Easy to clean, dust-resistant finish

ZEBRA BLIND

Special coating reduces maintenance and keeps the fabric looking fresh for years.

1. Modern Dual-Layer Design

- Alternating sheer & solid fabric bands
- Stylish contemporary look
- Smooth transition between view, soft light & privacy

2. Premium Fabric

- High-density, anti-static polyester
- Silk-matte, metallic & textured finishes
- UV protection against glare

3. Hardware & Operation

- Manual chain or motorized system
- Sleek aluminum cassette headbox
- Weighted aluminum bottom rail

4. Advanced Benefits

- Adjustable light control without lifting the blind
- Smart motor compatible (remote & voice control)
- Dust & stain-resistant coating

MONSOON BLIND

SHADELY Monsoon Blinds are designed to withstand heavy Indian rains.

1. Weather-Shield Protection

- 100% waterproof & wind-resistant
- UV-treated to prevent yellowing & cracking
- 0.5mm & 0.8mm thickness available

2. Heavy-Duty Hardware

- SS 304 stainless steel components (rust-free)
- Reinforced structure for strong wind & rain
- High-tensile side guides for stability

3. Smooth Operation

- Manual crank or motorized system
- Flexible open-edge design for quick adjustment
- Sleek finish with clear outdoor view

4. Key Benefits

- All-season outdoor protection
- Glass-like transparency
- Easy to clean & low maintenance

SKYLIGHT MOTORISED BLIND

Elegant finish with excellent thermal performance that reduces cooling costs.

1. 16mm Sleek Design

Dense pleated honeycomb structure for a premium look and superior insulation. Special ceiling-grade fabric maintains tension in extreme heat or cold.

2. Flexible Sizing

Standard coverage up to 8ft x 10ft, with custom solutions for larger skylights.

3. Strong & Stable

Patent-based mechanism for horizontal/inclined use, reinforced side channels, and heavy-duty controls to prevent sagging.

4. Smart Automation

Motorized system with remote control, group settings, scheduling, and heat/light sensor integration.

INDUSTRIAL BLINDS

Ideal For Warehouses, cold storage, food processing, loading docks & welding bay

1. Material & Thickness

- REACH-compliant, high-flexibility PVC
- 2mm Thickness: Internal doors & pedestrian areas
- 3mm Thickness: Heavy-duty, forklifts & high wind zones

2. Color & Transparency

- Opaque, solid & tinted colors (Red, Black, White, Yellow, Blue, Orange, Amber)
- 2mm high-clarity transparent sheets

3. Hardware System

- Heavy-gauge SS hook-on mounting rails
- Custom overlap (50%–100%) for better sealing

4. Functional Benefits

- Maintains temperature zones & saves energy
- Reduces dust, fumes, insects & noise (up to 30dB)
- High-visibility safety shades available

PLEATED 16MM MOSQUITO MESH

SHADELY Mosquito Systems – Smart protection with elegant design.

1. Strong Frame Design

- Heavy-duty architectural-grade aluminum
- Four-sided uniform channel system for a perfect fit
- Premium powder-coated finish

2. High-Performance Mesh Options

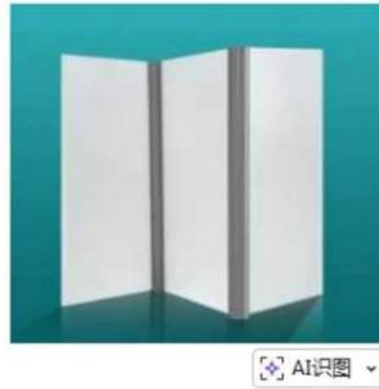

- SS 304 Stainless Steel: Durable, knife-resistant
- Premium Polyester: Flexible, corrosion-free & ideal for pleated systems

3. Precision Engineering

- Custom-fit for zero gaps & complete insect protection
- Smooth sliding operation
- UV-stabilized & weather-resistant components

4. Key Benefits

- Clear outside view
- Excellent ventilation
- Easy to clean & maintain

SECURITY MESH DOORS

Types of security mesh for SHADELY:- Aluminium Mesh for robust security-
PC Transparent Mesh for clear visibility- PC Frosted Mesh for added privacy

The Sliding Security Mesh Door by Shadely Marketing by Eagle Fabrics combines safety, ventilation, and contemporary design. Built with a durable aluminum frame and high-tensile stainless steel mesh, it provides dependable protection against intruders, mosquitoes, and harmful insects.

With a focus on quality craftsmanship and reliable protection, Shadely Marketing by Eagle Fabrics delivers a solution that combines strength, hygiene, and style in one smart installation.

Designed for smooth and effortless operation, its precision sliding mechanism ensures long-lasting performance with minimal maintenance.

And commercial spaces, adding both functionality and elegance. Engineered with weather-resistant finishing and superior airflow performance, this door enhances everyday comfort without compromising on security.

INVISIBLE GRILLS

SHADELY Mosquito Systems: Breathe easy, live better

Invisible Grills by Shadely Marketing by Eagle Fabrics are designed to provide uncompromised safety without blocking your view. Crafted using high-tensile stainless steel cables with protective coating, these grills ensure reliable protection for balconies and windows while maintaining a clean, open, and modern appearance.

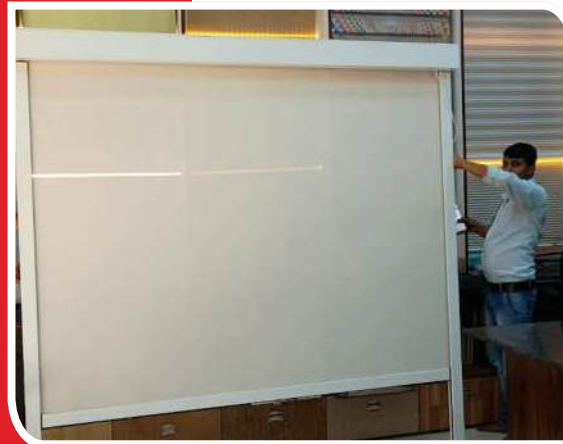

Unlike traditional bulky grills, the slim and nearly invisible wire design preserves natural light, ventilation, and panoramic views. Engineered for strength and durability.

Ideal for apartments, high-rise buildings, villas, and commercial spaces, Invisible Grills offer enhanced child and pet safety without disturbing the aesthetics of your property. It is a smart, contemporary safety solution that blends seamlessly with modern architecture.
